

MEN'S WELLNESS CENTERS

Operations Runbook

Booking Funnel · Monitoring · Infrastructure · Credentials

Generated: May 25, 2026 | Version 1.0 | CONFIDENTIAL — Internal Use Only

CONTENTS

- 1. Infrastructure Overview
- 2. Monitoring Stack
- 3. Key URLs & Dashboards
- 4. Credentials & API Keys
- 5. Booking Funnel Architecture
- 6. WordPress → Funnel Integration
- 7. GHL Integration
- 8. Performance Baseline
- 9. Incident Runbook
- 10. Deployment Procedures

1. INFRASTRUCTURE OVERVIEW

LAYER	PROVIDER	URL / REFERENCE	STATUS
Frontend hosting	Vercel	book.menswellnesscenters.com	LIVE
Source code	GitHub	mwcfome/mwclanders	ACTIVE
Backend / Edge functions	Supabase	Project ID: yvuwxaxnyxoejwzqfbdf	LIVE
CRM	GoHighLevel (GHL)	app.gohighlevel.com	LIVE
WordPress	menswellnesscenters.com	menswellnesscenters.com	LIVE

DEPLOYMENT FLOW

```
Code edit (Cursor / Claude Code / Antigravity) → git push origin main → GitHub (mwcforme/mwclanders) → Vercel auto-deploys (~30 seconds) → book.menswellnesscenters.com live
```

Note: Supabase edge functions do NOT auto-deploy on git push. They must be deployed separately via Supabase CLI or dashboard.

2. MONITORING STACK

TOOL	PURPOSE	DASHBOARD URL	PROJECT ID / KEY
Sentry	JS errors, crashes, performance tracing, session replay	sentry.io	DSN: https://25e951c20fe3d87749ed4b2628b97553@o451138590552883/4511447194468352
Microsoft Clarity	Session recordings, heatmaps, rage clicks	clarity.microsoft.com	Project ID: wwba9yepnx
UptimeRobot	Uptime monitoring, SMS/email on downtime	uptimerobot.com	Monitor #803146043
Vercel Analytics	Page views, Core Web Vitals (real users)	Vercel Dashboard → Analytics	@vercel/analytics component
Vercel Speed Insights	LCP, INP, CLS per page from real users	Vercel Dashboard → Speed Insights	@vercel/speed-insights component
GA4	Funnel events, conversion tracking	analytics.google.com	Measurement ID: G-286547777
Google Tag Manager	Tag management,	tagmanager.google.com	Container ID: GTM-5X9DB23T

	additional tracking		
Microsoft Clarity (WordPress)	Session recordings for main WordPress site	clarity.microsoft.com	Project ID: vttwm0cuk9

ALERT ROUTING

ALERT TYPE	WHERE IT GOES	TOOL
Site down	SMS + email (UptimeRobot alert contacts)	UptimeRobot
New lead captured	eobrien@menswellnesscenters.com	Resend via lead-notify edge function
GHL submission failed	eobrien@menswellnesscenters.com (red alert email)	Resend via lead-intake edge function
JS errors / crashes	Sentry dashboard + configured alerts	Sentry
booking_completed drops	GA4 custom alert email	GA4

3. KEY URLS & DASHBOARDS

RESOURCE	URL
Live booking funnel	https://book.menswellnesscenters.com
TRT landing page	https://book.menswellnesscenters.com/trt
ED landing page	https://book.menswellnesscenters.com/ed
Weight loss landing page	https://book.menswellnesscenters.com/wl
Admin panel	https://book.menswellnesscenters.com/admin
Vercel dashboard	vercel.com/men-s-wellness-centers/mwclanders
Supabase dashboard	supabase.com/dashboard/project/yvuwxaxnyxoejwzqfbdf
GitHub repo	github.com/mwcforme/mwclanders
WordPress site	https://menswellnesscenters.com
WordPress admin	https://menswellnesscenters.com/wp-admin
GHL CRM	https://app.gohighlevel.com

Booking funnel debug mode	https://book.menswellnesscenters.com/book/entry?t=TOKEN&debug=1
LP directory (internal)	https://book.menswellnesscenters.com/lp

4. CREDENTIALS & API KEYS

SECURITY: This document contains sensitive credentials. Store securely. Do not share externally. Rotate any key that may have been exposed.

WORDPRESS REST API

FIELD	VALUE
Site URL	https://menswellnesscenters.com
Username	opeclassz
Application Password	40GR lcFV vZiA S1H3 iEEI baY3
User ID	17
Base API URL	https://menswellnesscenters.com/wp-json/wp/v2/

SUPABASE

FIELD	VALUE
Project ID	yvuwxaxnyxoejwzqfbdf
Project URL	https://yvuwxaxnyxoejwzqfbdf.supabase.co
Anon/ Publishable Key	eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJpc3MiOiJzdXBhYmFzZSIsInJlZiI6Iml2dXd6YXhueXhvZWp3enF
Dashboard	https://supabase.com/dashboard/project/yvuwxaxnyxoejwzqfbdf

VERCEL

FIELD	VALUE
Team	men-s-wellness-centers
Project	mwclanders
Production URL	https://mwclanders.vercel.app
Custom domain	book.menswellnesscenters.com

Access Token (for CLI) [REDACTED — see Vercel dashboard → Account → Access Tokens]

VERCEL ENVIRONMENT VARIABLES

VARIABLE	VALUE / DESCRIPTION
VITE_SUPABASE_URL	https://yvuwzaxnyxoejwzqfbdf.supabase.co
VITE_SUPABASE_PROJECT_ID	yvuwzaxnyxoejwzqfbdf
VITE_SUPABASE_PUBLISHABLE_KEY	eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9... (see Vercel dashboard)
VITE_WP_HANDOFF_SECRET	9438804b80497d943f7a1dd205ffb1c893fe32bd64921990c8c24847788ca8ad
VITE_GA_MEASUREMENT_ID	G-286547777

VITE_SENTRY_DSN	https://25e951c20fe3d87749ed4b2628b97553@o4511385905528832.ingest.us.sentry.4511447194468352

ANALYTICS IDS

SERVICE	ID
GA4 Measurement ID (booking funnel)	G-286547777
GTM Container ID	GTM-5X9DB23T
Google Ads Account	AW-954193072
Microsoft Clarity (booking funnel)	wwba9yepnx
Microsoft Clarity (WordPress)	vttwm0cuk9
Sentry Org	o4511385905528832
UptimeRobot Monitor ID	803146043

5. BOOKING FUNNEL ARCHITECTURE

ROUTE MAP

ROUTE	PURPOSE	NOTES
/trt	TRT landing page	Primary paid traffic destination
/ed	ED landing page	—
/wl	Weight loss landing page	—
/	Homepage (all 3 services)	—

/book/symptom	Step 1: symptom selection	—
/book/duration	Step 2: how long (urgency tier)	—
/book/location	Step 3: clinic picker	Skipped if location set in hero form
/book/schedule	Step 4: GHL calendar	—
/book/ confirmed	Post-booking confirmation	—
/book/lets-talk	Phone/text fallback	"Something else" path + booking failure fallback
/book/entry	WordPress handoff entry	Accepts ?t=<token> only
/admin	Admin panel	Requires auth

SUPABASE EDGE FUNCTIONS

FUNCTION	PURPOSE	ENDPOINT
ghl-proxy	All GHL API calls (proxied, prod only)	/functions/v1/ghl-proxy
lead-intake	Receives WP form POST, persists lead, creates GHL contact, issues token	/functions/v1/lead-intake
wp-token-exchange	Exchanges single-use token for identity, consumed by BookEntry	/functions/v1/wp-token-exchange
meta-capi	Server-side Meta Conversions API events	/functions/v1/meta-capi
lead-notify	Sends email notification on every new lead (DB webhook)	/functions/v1/lead-notify
ghl-sync	Fetches available slots for all centers, caches in DB	/functions/v1/ghl-sync

6. WORDPRESS → FUNNEL INTEGRATION

FLOW

Fluent Form submit (WordPress) → PHP webhook POSTs to lead-intake edge function → lead-intake: persists lead + creates GHL contact + issues 15-min token → Returns: { funnel_url: "https://book.menswellnesscenters.com/book/entry?t=TOKEN" } → WordPress redirects user to funnel_url → BookEntry: exchanges token → seeds booking store → /book/symptom

KEY PHP CONSTANTS (HAMMAD'S CODE)

CONSTANT	VALUE / NOTES
----------	---------------

MWC_INTAKE_URL	https://yvuwzaxnyxoejwzqfbd.supabase.co/functions/v1/lead-intake
MWC_INTAKE_TOKEN	Must match LEAD_INTAKE_TOKEN in Supabase secrets
MWC_FUNNEL_BASE	https://book.menswellnesscenters.com

Known issue: The deployed lead-intake edge function is an older version that does not insert tokens into wp_intake_tokens. This is why funnel_url is missing from responses. Fix: Deploy current edge function code via Supabase CLI or dashboard. The wp_intake_tokens table now exists and is correctly configured.

CONSENT FIELD FIX

```
// Hammad's PHP – fix consent mapping: 'consent' => isset($formData['terms-n-condition']) && $formData['terms-n-condition'] === 'on',
```

7. GHL INTEGRATION

FIELD	VALUE
Production Location ID	Ghstz8elsHWLeXek47dk
Richmond Calendar ID	1Cfy5JnO2A4ggiZIMVvX
Virginia Beach Calendar ID	4xmnBGMWJ6TVUKcAPpPb
Newport News Calendar ID	lBaRbjUpEmesxEloFBME

LOCATION PHONE NUMBERS

LOCATION	PHONE	TEL LINK
Richmond / Glen Allen	(804) 346-4636	tel:8043464636
Newport News	(757) 806-6263	tel:7578066263
Virginia Beach	(757) 612-4428	tel:7576124428
Main line	(866) 344-4955	tel:+18663444955

GHL CUSTOM FIELDS WRITTEN BY FUNNEL

FIELD KEY	VALUES
mwc_symptom	energy sexual weight other
mwc_symptom_duration	lt6mo 6to12mo 1to2yr gt2yr
mwc_urgency_tier	early building overdue long_overdue

mwc_funnel_service	trt ed wl
mwc_lp_slug	URL path of landing page

8. PERFORMANCE BASELINE

318 KB

BUNDLE SIZE (GZIP) — AFTER OPTIMIZATION

86 KB

CRITICAL PATH (GZIP) — WHAT LOADS FIRST

461

TESTS PASSING

0

WCAG AA CONTRAST VIOLATIONS

METRIC	BEFORE	AFTER	CHANGE
Bundle (gzip)	370 KB	318 KB	-14%
Critical path (gzip)	170 KB	86 KB	-49%
WCAG AA violations	9	0	-100%

9. INCIDENT RUNBOOK

SITE DOWN

1. Check UptimeRobot: <https://dashboard.uptimerobot.com/monitors/803146043> 2. Check Vercel status: <https://vercel.com/men-s-wellness-centers/mwcclanders/deployments> 3. Check last GitHub push: <https://github.com/mwcforme/mwcclanders/commits/main> 4. If bad deploy: Vercel → Deployments → previous deploy → "Redeploy"

LEADS NOT APPEARING IN GHL

1. Check Supabase lead_captures table for recent rows (status = "failed") 2. Check lead-notify email — should arrive at eobrien@menswellnesscenters.com 3. If GHL failed: red alert email will arrive with capture_id and error 4. Manual GHL contact creation: <https://app.gohighlevel.com/contacts/new> 5. Check Supabase edge function logs: Dashboard → Edge Functions → lead-intake → Logs

WORDPRESS FORM NOT REDIRECTING TO FUNNEL

1. Check WP debug log for "FLUENT FORM - SUPABASE RESPONSE" 2. If response has ok=1 but no funnel_url → edge function needs redeployment 3. Deploy: Supabase Dashboard → Edge Functions → lead-intake → Redeploy 4. Or: `npx supabase`

```
functions deploy lead-intake --project-ref yvwzaxnyxoejwzqfddf 5. Test:
submit form, check for ?t= token in redirect URL
```

BOOKING CALENDAR NOT LOADING

```
1. Check GHL calendar IDs in ghlCalendars.ts 2. Check Supabase ghl_free_slots
table for recent entries 3. Manually trigger sync: POST to /functions/v1/ghl-
sync 4. Check GHL for calendar availability
```

JS ERRORS IN PRODUCTION

```
1. Check Sentry: https://sentry.io (project: mwc-booking-lp) 2. All /book/*
routes are PHI-sanitized and blocked from Sentry by design 3. Check Vercel
function logs for edge function errors
```

10. DEPLOYMENT PROCEDURES

DEPLOY FRONTEND (NORMAL FLOW)

```
git add -A git commit -m "feat: description" git push origin main # Vercel
auto-deploys in ~30 seconds
```

DEPLOY SUPABASE EDGE FUNCTIONS

```
# Requires Supabase access token export SUPABASE_ACCESS_TOKEN=your_token_here
# Deploy single function npx supabase functions deploy lead-intake --project-
ref yvwzaxnyxoejwzqfddf # Deploy all functions npx supabase functions deploy
--project-ref yvwzaxnyxoejwzqfddf
```

ADD VERCEL ENVIRONMENT VARIABLE VIA CLI

```
export VERCEL_TOKEN=[REDACTED – see Vercel dashboard → Account → Access
Tokens] echo "value" | vercel env add VARIABLE_NAME production
```

AI CODING AGENTS — HOW TO USE

TOOL	BEST FOR	HOW
OpenClaw (this assistant)	Strategy, audits, orchestrating changes, WhatsApp	Just message here
Cursor	Primary editor, fast inline edits	Open repo in Cursor, edit, git push
Claude Code	Complex multi-file refactors	Open repo, run tasks
Antigravity (Google Ultra)	Autonomous background tasks	Point at GitHub repo, describe task

All agents use the same workflow: edit code → git push → Vercel auto-deploys. The AGENTS.md file at repo root contains rules all agents follow automatically.
